

Master Black Belt CORE Sessions and Dates

The Core Sessions are focused on developing already successful Six Sigma Black Belts into key resources for further deployment of Six Sigma in their businesses.

Over the five weeks, participants will be provided a deeper look into many statistical methods to develop them further as technical mentors. They will also be challenged as future leaders of people and their companies Six Sigma initiative. Finally, they will be given insight as to how to become successful educators of others in Six Sigma methods.

These core sessions build on learning from previous weeks and need to be taken in order.

Core Session Descriptions:

- Session A1: Advanced Regression and Status Based Communication
- Session A2: Advanced DOE and Personality Profile Based Coaching
- Session A3: Advanced Statistics and Becoming a Change Agent
- Session A4: Passion, Vision, & Leadership, Instructional Workshop I
- Session A5: Master Black Belt Applications, Negotiation & Instructional Workshop II
